

As a global citizen I oppose Parliament's adoption of the "Green Pass" (Digital Green Certificate, introduced March 17, 2021 with proposal #COM 2021 130) without thorough, vigorous debate. While the intent of the Green Pass is to facilitate travel during the COVID-19 pandemic, I fear it will do the exact opposite: It will stifle travel and human interaction. While the Green Digital Certificate Proposal promises freedom it is by nature, a guarantee of discrimination. In fact, on April 19, the WHO asked that any plans for making proof of vaccination a condition of entry be abandoned because of the unavoidably discriminatory consequences. Out of respect for Parliamentary sovereignty, my request is that at Plenary Session you might consider voting in favour of the amendment proposed by Mr Rob Rooker MEP for the complete rejection of this unpopular Proposal.
